

## **Top THINK TANKS**

### **FMF 3rd in Sub-Saharan Africa and among World Top 75**

In the 2010 Global Go To Think Tank Rankings the Free Market Foundation was ranked 3<sup>rd</sup> in Sub-Saharan Africa and among the 75 Think Tanks nominated as one of the Leading Think Tanks in the World.

The *Think Tanks and Civil Societies Program* at the University of Pennsylvania ranks think tanks around the world based on a survey of hundreds of scholars and experts. According to the final United Nations University edition of the report, published on 18 January 2011: “Think tanks are public policy research, analysis and engagement institutions that generate policy-oriented research, analysis and advice on domestic and international issues that in turn, enable both policymakers and the public at large to make informed decisions about public policy issues.”

There are over 6,480 think tanks operating in 169 countries. The Free Market Foundation has been nominated (for the third time) as one of the leading think tanks in the world and in the list of the top 25 think tanks in sub-Saharan Africa.
